## MISSION & VISION / CORE VALUES

### Our Mission

**G**uided by integrity and innovation, we deliver safe, high-quality steel structure solutions through advanced engineering and rigorous management, creating lasting value for clients worldwide.

### Our Vision

**T**o become a globally trusted steel structure solution provider, recognized for engineering excellence, reliable delivery, and sustainable development—shaping stronger, safer, and more efficient built environments around the world.

# YINONG

# CERTIFICATIONS & HONORS

With robust technical capabilities, stringent quality control, and versatile construction expertise, Yinong has earned multiple certifications, including **ISO 9001, ISO 14001, ISO 45001, CE Certification** and holds over 30 patents in steel structure and mechanical technologies.

**PATENT  
CERTIFICATE 30+**

# OVERSEAS MARKET

**34**

**Tiny resort**

Argentina, Australia, Brazil, Canada, Dominican Republic, Egypt, France, Germany, Indonesia, Italy, Japan, Mexico, Russia, South Korea, Spain, Switzerland, Thailand, United Kingdom, United States, Vietnam, etc. (34 countries in total)

**12**

**Industrial building**

Argentina, Australia, Brazil, Cambodia, Germany, Indonesia, Mexico, Saudi Arabia, Tanzania, Thailand, Vietnam, Zimbabwe (12 countries in total)

**8**

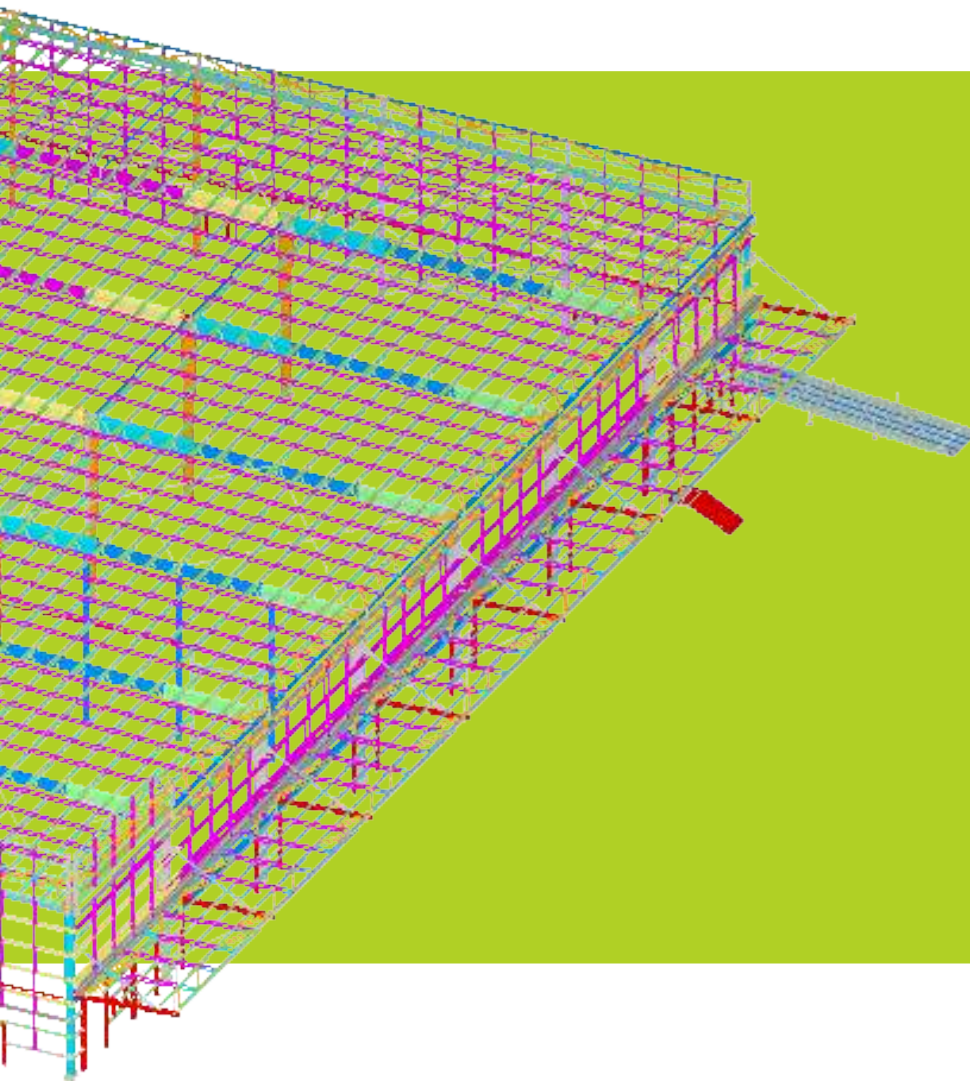

**Commercial Building**

Argentina, Brazil, Cambodia, Indonesia, Saudi Arabia, Thailand, Vietnam, Zimbabwe (8 countries in total)

# CHAPTER 2

PROJECTS  
PORTFOLIO

# INDUSTRIAL BUILDINGS

## RUIZHE LOGISTICS CENTER

### LOCATION

Jiashan, Zhejiang Province, China

### AREA

50,482 m<sup>2</sup>

### SCOPE OF WORK

Steel structure system for three multi-story warehouses with a second-floor connecting platform

### STEEL STRUCTURE DELIVERY TIME

2 months

### OPERATION COMMENCEMENT

2026

# COMMERCIAL BUILDINGS

## HANGZHOU COMMERCIAL COMPLEX

### LOCATION

Hangzhou City, Zhejiang Province, China

### AREA

14,148 m<sup>2</sup>

### SCOPE OF WORK

Steel structure system for a six-story commercial complex  
Steel Structure Weight: Approx. 2,100 tons

### STEEL STRUCTURE DELIVERY TIME

20 days

### OPERATION COMMENCEMENT

2026

# RESORT K30

## STRUCTURAL FEATURES

Thickened steel frame, aluminum exterior panels, PU insulation, 270° panoramic glass walls (6+12+6 double glazing), aluminum doors and windows, intelligent entrance control, adjustable support legs

## INTERIOR FEATURES

Bamboo charcoal fiber walls, premium waterproof wood-grain flooring, multi-color indoor/outdoor warm lighting, electric curtains, large skylight, full-cabin smart control, branded switch panels

## BATHROOM

Glass sliding door, smart toilet, water heater, shower, branded basin and faucet

## MAIN EQUIPMENT

Gree central air-conditioning, integrated hot-air bath heater

## OPTIONAL FEATURES

Electric floor heating, pipe antifreeze, projector, smoke alarm, starry sky ceiling

# RESORT K50

## STRUCTURAL FEATURES

Steel frame, aluminum panels, PU insulation, floor-to-ceiling windows, skylight, intelligent entrance, adjustable supports

## INTERIOR FEATURES

Bamboo charcoal walls, premium flooring, multi-color warm lighting, electric curtains, full smart control, branded switch panels

## BATHROOM

Glass sliding door, smart toilet, hot water system, branded basin and faucet

## MAIN EQUIPMENT

Central air-conditioning, integrated bath heater

## OPTIONAL FEATURES

Electric floor heating, antifreeze pipes, projector, smoke alarm, starry sky ceiling

# RESORT K70

## STRUCTURAL FEATURES

Thick steel frame, aluminum exterior panels, PU insulation, 270° panoramic glass walls, balcony, intelligent entrance, adjustable support legs

## INTERIOR FEATURES

Bamboo charcoal walls, premium wood-grain flooring, multi-color lighting, electric curtains, large skylight, full smart control, branded switch panels

## BATHROOM

Glass sliding door, smart toilet, hot water system, branded basin and faucet

## MAIN EQUIPMENT

Central air-conditioning, integrated bath heater

## OPTIONAL FEATURES

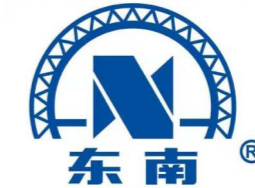

Electric floor heating, pipe antifreeze, projector, smoke alarm, starry sky ceiling

# CHAPTER 3

## OUR SERVICE

### OUR BUSINESS PARTNERS / KEY CLIENTS

Trusted by leading companies in steel structures  
and modular building industries

# SOLUTIONS & SERVICES (ONE-STEP SOLUTION)

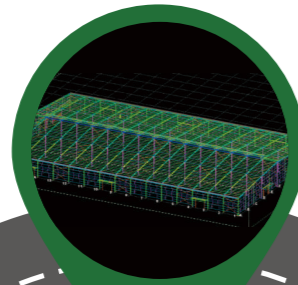

## OVERVIEW OF OUR SERVICES / WHAT WE OFFER

01

### Consult

We analyze your project specs, site data, and local regulations to create an optimal, feasible steel structure plan from the start.

02

### Design

Our engineers produce certified shop drawings, designing for precision manufacturing in our global factories and efficient on-site assembly.

03

### Manufacture

Your project is assigned to our optimal factory (Shandong, Shanghai, Zhejiang, Cambodia) for production under strict, continuously inspected quality control.

04

### Protection

Components receive specified corrosion protection (painting/galvanizing) and are professionally packed for maximum security during international transport.

05

### Deliver

We manage all logistics, documentation, and real-time tracking to ensure smooth customs clearance and timely delivery to your port or site.

06

### Install

For turnkey projects, our skilled construction teams complete the precise, safe assembly, delivering a finished, ready-to-use structure.

# WHY CHOOSE US

## Seamless Communication

Multilingual support across different countries and 007 online service to ensure smooth and efficient project communication.

## Technical Certification

Compliance with ISO and RoHS standards, reflecting high technical competence and international credibility.

## Strict Quality Control

Every component undergoes thorough inspection before export, including dimensions, precision, assembly positions, and paint thickness/flatness. High-precision laser cutting with Japanese-imported equipment ensures clean cuts, high accuracy, and efficient production.

## Professional Installation

At least one on-site engineer is provided for every project. Components are shipped in the exact sequence required for installation, ensuring smooth assembly and minimal delays.
